

In the claims:

Claims 1-16 cancelled.

17. A method of making a medication, comprising the steps of making from an initial material an active medicinal substance in a therapeutic dose; making from the same initial material a potentiated medicinal substance produced by a homeopathic method; and producing the medication from the active medicinal substance in therapeutic dose and the potentiated medicinal substance produced by a homeopathic method.

18. A method as defined in claim 17, wherein said producing includes placing the active medicinal substance in therapeutic zone and the potentiated medicinal substance produced by a homeopathic method in different vessels, and transferring information from the potentiated medicinal substance produced by a homeopathic method to the active medicinal substance in therapeutic dose.

19. A method as defined in claim 17, wherein said producing includes impregnating the active medicinal substance in therapeutic zone

with the potentiated medicinal substance produced by a homeopathic method.

20. A method as defined in claim 17, wherein said producing includes dissolving the potentiated medicinal substance produced by a homeopathic method in the active medicinal substance in therapeutic dose.

21. A method as defined in claim 17, wherein said producing includes introducing the potentiated medicinal substance produced by a homeopathic method into the active medicinal substance in therapeutic dose formed as a paste.

22. A method as defined in claim 17, wherein said step producing includes introducing the potentiated medicinal substance produced by a homeopathic method and the potentiated medicinal substance produced by a homeopathic method simultaneously into an organism so that the active medicinal substance in therapeutic dose and the potentiated medicinal substance produced by a homeopathic method together make said medication in the organism.

23. A medicine, comprising an active medicinal substance produced from an initial material in a therapeutic dose; a potentiated medicinal substance produced from the same initial material by a homeopathic method.

24. A medicine as defined in claim 23, wherein said active medicinal substance in a therapeutic zone has information transferred from the potentiated medicinal substance produced by a homeopathic method.

25. A medicine as defined in claim 23, wherein said active medicinal substance in a therapeutic zone is impregnated with the potentiated medicinal substance produced by a homeopathic method.

26. A medicine as defined in claim 23, wherein said potentiated medicinal substance produced by a homeopathic method is dissolved in the active medicinal substance in a therapeutic dose.

27. A medicine as defined in claim 23, wherein said potentiated medicinal substance produced by a homeopathic method is introduced into the active medicinal substance in a therapeutic dose formed as a paste.

28. A medicine as defined in claim 23, wherein said potentiated medicinal substance produced by a homeopathic method is simultaneously into an organism with said active medicinal substance in a therapeutic dose, together making said medication in the organism.

29. A medication as defined in claim 23, wherein said active medicinal substance in a therapeutic dose is atropine sulfate while said potentiated medicinal substance produced by a homeopathic method is Atropini Sulfati C30 obtained by a consecutive dissolving and shaking in accordance with the homeopathic method.

30. A medication as defined in claim 23, wherein said active medicinal substance in a therapeutic dose is acetyl-salicylic acid, while said potentiated medicinal substance produced by a homeopathic method is aciolum salicylicum obtained by impregnation of a neutral substance which is milk sugar with a solution of acidum salicylicum with a potency C30 in accordance with the homeopathic method.

31. A medication as defined in claim 23, wherein the active medicinal substance in a therapeutic dose includes 1.00 ml of Prednizolon, while the potentiated medicinal substance produced by a homeopathic

method is potentiated Prednizolon in 1200 dissolving Cortex, C12 prepared in accordance with the homeopathic method.

32. A medication as defined in claim 23, wherein said active medicinal substance in a therapeutic dose is insulin, while said potentiated medicinal substance produced by a homeopathic method is Insulinum C30.

33. A medication as defined in claim 23, wherein said active medicinal substance in a therapeutic dose is zinc paste, while said potentiated medicinal substance produced by homeopathic medicine is Zincum Metallicum.

34. A medication as defined in claim 23, wherein said active medicinal substance in a therapeutic dose is Sarcolysin dissolve in potassium chloride, while said potentiated medicinal substance produced by a homeopathic method is Sarcolysinum 200.

36. A method of treatment with a medication, comprising the steps of making a medication including an active medicinal substance made of an initial material in a therapeutic dose and a potentiated medicinal

substance produced by a homeopathic method from the same initial material; and introducing the medication into an organism.

37. A method of treatment as defined in claim 36, wherein said active medicinal substance in a therapeutic dose and said potentiated medicinal substance produced by a homeopathic method together form first the medication which is subsequently is introduced into an organism.

38. A method of treatment as defined claim 36, wherein the active medicinal substance in therapeutic dose and the potentiated medicinal substance produced by a homeopathic method are introduced into the organism separately.
